

## PRODUCT DATA SHEET

**PRODUCT: RPLSIL A**

**Page 1 of 1**

**DESCRIPTION:** RPL SIL A is a mixture of a Polydiorganosiloxane and an activating filler for use as a silicone antifoam base for use in a wide variety of processing applications.

### **TYPICAL PROPERTIES:**

APPEARANCE -- Opaque-Translucent viscous fluid  
SOLIDS CONTENT -- 100 %  
STORAGE STABILITY -- 12 Months  
SOLUBILITY – insoluble in water – soluble in some solvents and surfactant systems.

**APPLICATIONS:** RPLSIL A can be used in any application where elimination or suppression of foaming is desired. Often only small quantities are required. Applications include its use as an antifoam and defoamer for many process industries and applications.

**PLEASE NOTE:** The information given in this data sheet is, to the best of our knowledge correct. However owing to the possibility of the use beyond our control, treatment techniques/applications are made without guarantee and trials to determine the suitability of the product are recommended.
