

## PRODUCT DATA SHEET

**PRODUCT: RPLSIL 65**

**DESCRIPTION:** RPLSIL 65 is an emulsion of polydiorganosiloxane in a nonionic emulsifying system. It also has a small amount of an anionic emulsifier to boost its surface wetting performance.

**TYPICAL PROPERTIES:**

APPEARANCE -- Thick white emulsion  
pH -- 4.5  
SOLIDS CONTENT -- 65 %  
EMULSIFIER SYSTEM -- Nonionic  
STORAGE STABILITY -- 12 Months

**APPLICATIONS:** RPLSIL 65 will give excellent performance over a broad range of applications.

**USES:** As mentioned above RPLSIL 65 can be used across a broad range of industries such as:-

- \* Automotive industry
- \* Metal industries
- \* Home care industry
- \* Chemical industry

**HANDLING:** Although none of the components of the emulsion are considered hazardous, due care such as gloves and glasses should be used during handling the product. Care should also be taken to avoid extremes of temperature during storage.

**PLEASE NOTE:** The information given in this data sheet is to the best of our knowledge correct. However owing to the possibility of the use beyond our control, treatment techniques/applications are made without guarantee and trials to determine the suitability of the product are recommended.
